BESPOKE SILICONE MOULDS

Preserving Architectural Detail Through Skilled Craftsmanship

Decorative Plaster is a Glasgow-based specialist in traditional ornamental plasterwork, restoring and reproducing intricate features in period properties — cornices, ceiling roses and ornamental mouldings.

Damaged or missing plasterwork is carefully reproduced to match existing details — suited to projects where standard plastering cannot replicate the character of the original.

SERVICES

01

Cornice Restoration

Repairing damaged, cracked or missing traditional cornice.

02

Ceiling Rose Restoration

Restoring and reproducing ornamental ceiling roses.

03

Bespoke Mould Making

Creating moulds to reproduce existing decorative details.

04

Ornamental Plaster Casting

Manufacturing replacement decorative plaster sections.

05

Water-Damage Reinstatement

Repairing decorative plasterwork affected by leaks and water damage.

06

Heritage Plaster Restoration

Preserving traditional architectural details in period properties.

Restoring Intricate Architectural Detail

A heavily damaged ornamental ceiling rose — extensive breakage, with multiple sections missing or detached — restored and reinstated to its original decorative appearance.

BEFORE — DAMAGED ORIGINAL

AFTER — RESTORED FEATURE

CAPABILITIES DEMONSTRATED

- Intricate ornamental restoration
- Repairing damaged decorative plaster
- Reinstating missing decorative sections
- Preserving original architectural character

RELEVANT TO INSURANCE REINSTATEMENT

Specialist restoration of damaged ceiling features where retaining or reproducing original architectural detail is required.

Transforming Damaged Interiors

A period bay-window room restored from heavy damage — broken, incomplete cornice and damaged ceiling finishes — to a finished room with ornate cornice reinstated around the full bay.

BEFORE — DAMAGED BAY & CORNICE

AFTER — ORNATE CORNICE REINSTATED

CAPABILITIES DEMONSTRATED

- Interior plaster restoration
- Working within period-style interiors
- Decorative cornice installation
- Integrating ornamental plasterwork with surrounding finishes

RELEVANT TO PROPERTY REINSTATEMENT

Specialist decorative plasterwork can form part of wider reinstatement projects following property damage.

Precision Repairs. Original Character Preserved.

Water ingress had saturated this ornamental cornice, leaving it mouldy, cracked and with broken sections of detail. The damaged cornice was repaired and reinstated, restoring the continuity of the original decorative profile.

BEFORE — WATER DAMAGE & MOULD

AFTER — REPAIRED & REINSTATED

CAPABILITIES DEMONSTRATED

- Repairing water-damaged plasterwork
- Traditional cornice repair
- Matching existing profiles
- Reinstating ornamental details
- Repairing complex corners
- Preserving existing features

WATER-DAMAGE CORNICE REINSTATEMENT

Where water ingress has left traditional cornice damaged or mouldy, we repair or reproduce the original profile — not replace it with standard modern coving.
